Online Safety Makes A Happier World!

Editor's Note

Dear Readers,

In commemoration of this February 5th as the Safer Internet Day, the International Child Art Foundation wants you to learn that "Online Safety Makes a Happier World."

The number of registered Internet users worldwide today has reached 4 billion and the number of websites you can access exceed 1.3 billion. According to Forbes magazine, 81 percent of parents say their children began using social networks when 7 to 13 years old. It is no surprise that online safety has become the relevant component of cultivating digital literacy skills.

In this magazine you will meet and learn from a variety of experts and practitioners on how to make a better world safely, so your own privacy is not compromised, and the Internet remains a creative communication tool that can also develop mutual empathy.

We hope what you read and learn will help you navigate the Internet safely, and advance human civilization, virtually and in analogue world.

Creatively yours,

Dr. Danica Radovanović
Guest editor for this issue

INTERNATIONAL
CHILD ART
FOUNDATION

A 501(c)(3) non-profit organization that prepares children for a creative and cooperative future, ICAF is the only national art and creativity organization for children in the United States. ICAF is also the only worldwide umbrella organization promoting children's creativity and imagination

through the arts. To subscribe to ChildArt magazine, call 202-530-1000 or e-mail childart@icaf.org.

ChildArt is published quarterly by ICAF. Submissions may be edited even when accepted. Submissions of artwork and other material to ChildArt are made at the risk of the sender. ChildArt quarterly magazine, published since 1998, is a commercial-free arts learning, self-discovery, and global education periodical.

You can also make a donation to ICAF by sending a check to:
